

Where the focus is always on you

Thank you for considering DIPics to record that most special of days, your wedding day. An experienced, professional photographer can help ensure that the event is not only beautifully immortalized in photos, but that the reception is as smooth and trouble free as the well-planned ceremony itself. Our use of cutting-edge digital imaging technology ensures not only the highest photographic quality but also that the memories of this special day live forever.

Where the focus is always on you

What is a portrait exactly? Is it any picture of a person? We at DIPics don't think so. A portrait is a photo that not only shows what the subject looks like, but also tells something about that person. If you want just "a good likeness" then go to a department store, sit in their little mini "studio" and let them shoot.

However, if you would like to have a portrait that says something about you, one that goes way beyond the "sit and grins" that you have done before, then give us a call. Don't expect a quick sitting in a studio though. Instead, expect to spend at least a couple of hours at possibly several locations capturing what is unique about you.

Portfolio

This package is a little different. It is designed for the client that is looking for just a little bit extra. It is a full modeling portfolio type shoot and includes a CD or DVD of all the photos. Wonderful for models and actors starting their craft or someone that needs to make a lot of prints to satisfy their needs. Price includes sitting and CD/DVD.
